Amendments to the Specification:

Please amend the specification by inserting the replacement paragraph below at page 3, lines 36 through page 4, line 6.

~~It is possible to add to the milk-based medium the ingredients necessary for producing the product ready for consumption which is desired to obtain~~ Other ingredients can be added to the milk-based medium to produce various consumable products. If, for example, it is desired to obtain a milk food for unweaned babies, lactose, maltodextrins, minerals, vitamins, fat, and ingredients which make it possible to reconstitute the composition of breast milk, will be added. If desired, the fat is incorporated and then homogenized with the solution so as to obtain a stable emulsion.
